## **Introduction**

OUR NURSERY STOCK, with the exception of some of the fruit, roses, and a few varieties of shrubs, is grown entirely on our own nursery.

All our stock is extremely hardy, has a fine root system and has had splendid care. We give it no protection from our severe winters and are growing nothing but first class, hardy, New England grown plants. We know our stock will do well if given fair chance, by proper planting and a reasonable amount of care.

Our Terms are Cash. However, we will gladly give credit to those people known to us. Anyone wishing to open an account will please give us the names of three parties with whom they have credit relations and allow us time to investigate.

**STEPHEN HOYT'S SONS CO.**
